NEW STATE TAX RATE PROPOSED

Committee Gives Out Probable Rate on Intangible Personal Property

RATE TO BE REDUCED

All Property Voluntarily Disclosed to Secure Reduction but All Other to pay Full State and City Taxes.

The Committee on Tax Revision which will make its report to a special session of the State Legislature, has found more serious inequalities in the payment of taxes on intangible personal property than on any other. Unlike real estate on which all owners pay, though on widely varying rates and assessments on like values, the inequalities among owners of intangibles, and between intangibles and other classes result from the payment by a few on full values at a high rate and concealment and no payment at all by a great many of the owners of this class of property.

From the beginning of history this property has been hidden from the tax collector, but more successfully in each generation. When found, the tax rate in some of our localities confiscates the income from it. Virginians have been more honest about paying on it, in such circumstances, than most people. A special tax committee for that State reported that Kentucky received more revenue for the year 1912 from its dogs than it did from all the bonds, moneys and stocks in the State.

1913 Intangible Personal Property Assessment.

Bonds, notes and other evidences of debt	$53,383,549
Capital, moneys and credits of individuals employed in business out of the State	517,016
Capital of corporations, not otherwise taxes, excluding real estate. (This payment relieves owners of shares of Virginia stock from taxes thereon)	17,255,506
Capital of individuals used in business, not otherwise taxed	10,439,920
Money, and the value of personal estate and credits under control of fiduciaries, guardians, agents and receivers and comm'r's	29,109,345
Money and credits deposited to the credit of pending suits	1,854,798
Money on deposit with banks, etc.	14,002,721
Shares of stock, except shares in Virginia corporations, public service corporations, banks and trust Co.	15,404,450
Shares of stock of Virginia banks and trust companies	44,270,780
	$186,238,095

All Virginia bank stock is assessed It pays all State and local rates on full value, and is, therefore, perhaps the highest taxed property in the State. It is believed that nearly a half of the property under the control of guardians, fiduciaries and court commissioners is assessed. Excluding these two items, it is known that not one tenth of the intangible personal property in the Commonwealth is assessed for taxation.

Take four striking illustrations:

The estates of dead people pay more than one fifth of all the taxes on this class of property. One Examiner of Records found 13 people assessed with $14,000. of intangibles the last years of their lives; at death they held $1,340,000. worth. Death disclosed to the same Examiner and secured 21 other omitted assessments of $10,182,000.

In 1913 the total assessment of bonds, notes and other evidences of debt in the City of Richmond was $4,846,174., yet in that year the deeds of trust alone that were recorded in the city securing bonds and notes alone amounted to $14,563,039.35. Her best informed real estate men say that there is in the city at least $70,000,000. of such secured bonds, and notes, in addition to the large but unknown amount of such securities which are unsecured. Still Richmond is probably more fairly assessed than the average locality.

In 1913 the total State assessment of merchants and manufacturers was $27,695,436., yet the 1910 census, carefully taken on this item, shows Virginia manufacturers' capital of $216,392,388; a ratio of assessed to true value of 12.78%. This ratio varies as follows: Alexandria 5.43%; Danville 16.94%; Lynchburg 19.45%; Norfolk 23.60%; Petersburg, 18.08%; Portsmouth 3.69%; Richmond 40.45%; Roanoke 7.45%; Staunton 20.90%; balance of State 5.04%. The census figures do not deduct assessed value of real estate. An allowance should be made for this.

In 1914 operating under the new total 20c rate on money, there was assessed in the whole State as of February 1st, $25,690,911, of money, yet the bank statements show that on March 4th there was on deposit in the Virginia banks $150,527,998.15.

In Virginia the average tax rate for all purposes, State and local, is $1.495 on the $100.00 of assessed valuation. Based on estimated true values, the real rate for all purposes paid is on real estate as a whole class .577c; on tangible personal property as a whole class .70c; and on intangible personal property as a whole class less than .15c. But most of those who do pay on this last class pay on its true valuation at their combined State and local rate, that is, nearly three times as much as is paid on real estate of equal value.

Remedies.

The Committee has struggled to find a true solution of the problem of securing the assessment of all of this class of property and fixing a fair rate thereon, without entire success. It seriously considers making the following recommendations, knowing that they are not absolutely logical but hoping that if they are followed much more of this class of property will be assessed and at fairer rates than those now existing:

Total rate on money. 20c on the $100.00 for State purposes only.

Total rate on notes and bonds secured by deeds of trust, mortgage, or vendor's lien, the due date of which is five years or less, .35c per year on the $100.00 for State purposes only, and payable when recorded. Same rate on bonds of Virginia municipalities.

Total rate on share of stock of Virginia banks, $1.35 on the $100.00 35c for State purposes and $1.00 to be apportioned among the various assessments of the localities including the town assessments with the county.

Total rate of $1.00 on the $100.00 on all other classes of intangible property; .25c for State purposes and .75c apportioned among the various assessments of the localities, including the town assessments with the county.

Each of these rates to apply only on property **volutarily disclosed** to the Commissioner of the Revenue for assessment. On all other like property when discovered the full State, city, county, district and town rates to be assessed, and all past due taxes to be collected.

A law requiring the Examiners of Record to review all intangible property and income tax returns, and extending to the Examiners of Records or agents employed by the Auditor, the same powers to examine and correct such returns as they now have with reference to the estates of deceased persons, carefully guarding their operations to prevent improper annoyance and publicity.

No deductions for debts due against any intangible assessment.

GERMANS STILL ON OFFENSIVE

Kaiser's Troops, Reinforced Make Slight Gains at Certain Points

ALLIES' LEFT INTACT.

Military Experts Optimistic—Say Arrival of Additional Troops Will Turn Tide Against Invaders.

Paris, Oct 6—The re-enforced German line continues its efforts to break through the encircling movement of the allies. It has gained slightly at new points, only to be thrust back violently at others.

It is officially announced this morning that the fighting continues with unabated vigor, but that at no point has the allies' left been penetrated.

The general flanking movement continues to be extended northward while fresh troops are being sent into action at the points on the line where the greatest German pressure is apparent.

All military experts insist that the present check is only temporary and that the fresh levies being hurried to the extreme left will turn the tide in favor of the allies.

It is stated unofficially that the present northward movement presages the early relief of the hard-pressed Belgians, who are bearing again the full brunt of the war's horror.

The Germans are also endeavoring to develop a new offensive on the right of the French center in the Argonnes and also along the Meuse. They are carring on practically continuous night and day attacks in these sections but, according to the reports, they are sacrificing many men without gaining advantage.

Meanwhile they have denuded their center lines to aid in these movements.

WORK ON NEW BRIDGE.

Railway Structure Being Built at Woodbridge, Va

Good progress is being made on the erection of the new railroad bridge across Occoquan creek at Woodbridge, Va., about twenty miles below this city. The heavy end abutments, which are of stone, have been completed, and recently a big wooden caisson was launched at Occoquan, which is to be sunk in the bed of the creek to carry the pier on the north side of the draw span.

The new steel and concrete bridge under construction will take the place of a high wooden structure which for the past twenty-five years or longer, has carried trains between this city and Richmond and the south over the waters of Occoquan creek, and is about 600 feet long. It is located about fifty feet to the eastward of the old bridge.

About six months, it is said, will be required to complete the structure and have it ready for service.

POLICE COURT.

(Justice H. B. Caton Presiding)

The following cases were disposed of this morning:

Noah Green, colored, charged with assaulting Sarah Jennifer, was fined $5.

Ernest Miller, colored, charged with disorderly conduct, was fined $10.

W. Decatur and Arthur Dickerson, charged with disorderly conduct, forfeited their collateral by failing to appear.

FEATURE PICTURE.

At all performances this evening at the Richmond the three-reel feature, "Love, Luck and Gasoline," will be shown. This picture will prove to be one of the seasons most comical and thrilling set of scenes ever arranged, featuring John Bunny, Cutey and Miss Tomboy, in characteristic acts of each.

These three motion picture stars will be seen in fast steam yachts, high-powered racing hydroplanes, speeding autos, soaring aeroplane and the latest of all speed creations the "amphibious" flying boat. Cutey and Miss Tomboy make a clean getaway to Hymen's altar. Bunny, the pursuing parent, falls from a biplane into the sea and—gives them his blessing.

Don't fail to see this roaring comic picture. First show starts at 6:30 p. m.

IS THE KAISER A MADMAN?

Scientists Assert German Emperor Has Long Been Abnormal

Paris, Oct. 6.—Jean Sinot publishes in the forthcoming number of the Revue a sketch of the kaiser. He says:

"When I was in Turin, Lombroso gave me judgement of the German emperor, whom he declared to be merely a marked matterde, that is a kind of madman. We agreed to publish a psychiatric study of the monarch whose accesses of verbomania and magalomania, joined to hereditary desire, has never ceased to disquiet psychologists, but we adjourned publication indefinitely on account of political opportuneness."

M. Sinot believes that no sudden access drove the kaiser to war, and that his action was "only a manifestation of that slow, continuous malady, which has been undermining him and his reign in a succession of frenzied acts."

New York, Oct. 6—Timothy Healy M. P. who arrived yesterday by the Cunarder Campania from Liverpool with several other notable Britons, expressed confidence in the ultimate defeat of the kaiser's armies in the campaign in France. "The kaiser," the Irish leader said, "has lost all the admiration which the world had bestowed upon him and Germany by the manner in which he attacked Belgium to make a short cut to Paris. The success of her strategy depended on that move. She has lost. She intended to hold Paris for a ransom of a thousand million dollars with the alternative of burning the City.

"I regard Germany as a beaten power. Judging the situation from a political and diplomatic viewpoint it is apparent that the kaiser is no statesman. He blundered in abandoning the policy of Bismark. He has shown the folly of an individual who, because he happens to be a monarch, claims as his birthright the ability to direct every military and diplomatic move of the empire."

ENTHUSIASM FOR WORLD'S SERIES

Small Boys Hold Advanced Positions in Order to Get Tickets.

AN ALL-NIGHT VIGIL.

One Hundred Thousand Fans Want to be Admitted—Only Twenty-two Thousand Will be Sold.

Philadelphia, Oct. 6—Intrenched behind newspapers and holding their advanced positions on camp stools and soap boxes with manifest determination a dozen small boys, the vanguard of fandom, early today had seized the strategic point in the line of world's series baseball tickets, which were to be put on sale at a local department store tomorrow morning. Following an all-night vigil, the lads awoke to view with dismay several hundred of the "enemy" covetous of their places. Mobilization of the army of purchasers for the world's series cards then proceeded rapidly.

Joe Banks, weighing 180, aged eighteen, with barracks at 618 Broadway, Camden occupied first place, ostensibly at the behest of his father Repeated attempts to bribe him were unsuccessful until an elder brother secured a place in the line, when Joe pocketed fifteen $1. bills, his fee to buy tickets for a salesman.

R. W. Graether, twenty-two of 35 Nairn street, Newark, N. J., cornered 200 camp stools at 25c to sell at 50c

Robert McRoy, representing the National Baseball Commission, was to arrive here today to arrange for the public sale of tickets tomorrow. President Shibe of the Athletics, said that the demand for tickets was never so large before.

"If anybody can tell me how to make 22,000 tickets satisfy 100,000 fans, I wish he would come forward," said Shibe. "Until baseball parks are built to hold 100,000 or more there will be kicks at every world's series."

Justice Wright Resigns.

Washington, Oct. 6.—Daniel Thew Wright, justice of the District Supreme Court, today sent his resignation to the president.

The resignation, efective November 15, ends the impeachment investigation which has been in progress before a subcommittee of the House Judiciary Committee.

REV. DARST MENTIONED.

Richmond, Oct. 6—Rev. Thomas C. Darst, rector of St. James Church, is being mentioned as a successor to the late Bishop Strange, of the Diocese of East Carolina. In the same connection the names of Dr. John Harding, of New York; Rev. Isaac Hughes, of Henderson, N. C., and Dr. Coupland, of New Orleans, are being mentioned.

The diocesan council will meet in Washington, N. C., on Wednesday, and a bishop will be selected at that time.

Mr. Darst succeeded the late Rev. William Clark, D.D., as rector of St. James. He was mentioned in the last diocesan council here for the position of bishop-coadjutor to Bishop Gibson.

NEWS OF THE DAY

The call of Count von Bernstorff, the German Ambassador at the State Department yesterday, where he conferred for half an hour with the Secretary, aroused much speculation in diplomatic circles in Washington last night as to the possibility that further efforts had been set in motion by the administration, indirectly at least, to bring about peace in Europe. Neither the Secretary nor the Ambassador would discuss the purpose of the visit.

The defeat of the German army which invaded Russia from East Prussia appears from Russian accounts to have been more decisive than previously stated. According to the Russian Ambassador at Rome, the Germans were completely routed, with a loss of 70,000 men, and have been forced to abandon everything. The Russians are now moving forward with the object of again invading East Prussia.

Secretary of State Bryan has obtained from Representative Levy an expression of the latter's readiness to relinquish to the United States government Monticello, once the home of Thomas Jefferson. Representative Levy is willing to part with Monticello for the sum of $500,000, on condition that the United States government make it the Virginia summer home of Presidents of the United States.

Behind the locked door of the bathroom in the home of the parents of his wife, in Baltimore, Harry E. Rogers, 39 years old, son of Frederick Rogers, of Annapolis, Md., slashed his throat with a razor yesterday morning. He was rushed to St. Joseph's Hospital, where he died shortly after being admitted.

Ralph Roever, 26 years old, formerly of Wayne, Pa., but a resident of Sudbrook Park, Baltimore county, Md., for the last two months, was killed and his two companions narrowly escaped death when an automobile in which the three men were riding skidded and turned turtle on the University Parkway early yesterday morning.

The populace of Rome was driven to a frenzy yesterday by publication or reports that Austrians were still laying mines in the Adriatic. These declared that floating mines were being strewn along the coast by Austrian mine and naval officers dressed as fishermen and operating in fishing boats. Crowds paraded the streets crying: "Down with Austria!" and "Give us war!" As a result of threatened attacks on the Austrian and German legations, the guard over both was redoubled.

S. J. Homer, an attorney, was shot and killed yesterday at Durant, Okl., in a revolver duel on a main street. The man, who is said to have done the shooting, escaped. Homer was one of the leading Indians of the state, having formerly been national secretary for the tribal government of the Choctaw nation.

"The Japanese squadron delegated to destroy the German fleet in the South Seas has landed sailors on Jaluit Island, the seat of government in the Marshall archipelago, which was annexed by Germany in 1886. It is believed the German base was destroyed, and that the fortifications, arms, and ammunition were seized. A British steamer in port was released. There was no resistance to the Japanese."

The position of Holland at the present time is one of extreme delicacy It is pressed on one side by the Germans, who object to any action which would close the port of Rotterdam to German trade, and on the other side by the British government, which is insistent upon cutting off any cargoes of contraband or conditional contraband that might find their way to Germany. Holland finds neutrality difficult.

Twelve men are known to be dead and 12 injured as a result of a coal explosion in the Mulga mines of the Woodward Iron Company, 18 miles northwest of Birmingham, Ala., yesterday.

BOMBARDMENT OF ANTWERP FORTS

Belgians Urge England and France to Hurry Reinforcements

PRESSURE IS SERIOUS.

Germans, It Is Believed, Desire to Destroy Brussels and are Seeking Excuse for Deed.

Antwerp, Oct. 6.—Only the military force actively engaged in the defense of Antwerp are now permitted to go to the front.

Because of the danger of German spies no persons are permitted to occupy the spires of the churches or the roofs of the tall buildings.

The bombardment of the southern and eastern chain of forts continues without interval day and night. Rumors are current that some of the forts have been badly damaged. But the war office declares the resistance is well maintained.

Messages urging England and France to rush immediate relief troops to the city have been dispatched to London and Bordeaux.

The official statement issued today, said:

"The Germans continue their bombardment of the outer ring of forts. They have utterly failed, however, in their attempts to gain a foothold at any point. In a series of sorties the garrison has inflicted great damage on the enemy, who has now abandoned all efforts to carry our positions by storm. Every single fort and redoubt is holding out."

Despite this optimistic declaration, however, it is known the pressure is becoming so serious that urgent messages have been sent to the British and French general staffs asking that immediate steps be taken to force the Germans to raise their siege.

It is felt Belgium has sacrificed enough in trying to check Germany by her own efforts and that the allies can now spare enough fresh troops to undertake a flanking movement in force from the west coast which would compel the Germans to evacuate Brussels and to lift the siege of Antwerp.

There is the more reason it is felt here why this movement should be instituted because of the attitude of the Germans toward Brussels. They are plainly trying to find an excuse to destroy the Belgian capital and their acts of oppression are causing much friction with the inhabitants.

Brussels was abandoned by the direct orders of the French general staff and now that body has been appealed to take steps that will force the Germans out before the city is made a fiery sacrifice to relentless warfare.

Meanwhile many residents have left Antwerp for places of refuge in Holland and England. So far as possible all of the vessels leaving, including even the fishing boats, are carrying noncombatants to neutral territory. It is explained, however, that this movement is entirely precautionary.

REVIEW WATER COMPLAINTS.

Upon invitation, the board of directors of the Alexandria Water Company and the committee on health of the City Council will meet in the office of the Health Officer in the City Hall this afternoon. The object of the conference was not stated in the invitation to the directors, but it is expected that several matters concerning the water supply suply of the city which have recently been before Council will be discussed at the meeting.

WOMAN IS FOUND DEAD

Melvina Lucas, Well-known Resident Believed to Have Committed Suicide.

Mrs. Melvina Lucas, known as Diana Lucas, a woman 40 years old, was found dead in her home at 412 North Fairfax street this morning under circumstances which cause the authorities to believe that the woman committed suicide. She was found lying on the floor of her bedroom, with two empty bottles, one of which had contained laudanum and the other carbolic acid, by her side. Her body was doubled up and her hands clinched as if she had expired in great agony.

The police found out that the woman had been drinking yesterday with another woman, Melvina Fleming and late last night they went to a drug store and purchased a bottle of laudanum and a bottle of carbolic acid. The Fleming woman took some of the laudanum and fell into a stupor. This morning when she came to her senses she went to the adjoining house where the Lucas woman lived and found her body.

Dr. T. Marshall Jones, city coronor made an investigation and ordered the remains sent to Demaine's undertaking establishment, where he will conduct an autopsy. He decided that an inquest was unnecessary.

CASES MALARIAL FEVER

Early Fall Malady is Affecting Some Residents of The Southeastern Section.

The alarm caused several weeks ago by the number of cases of typhoid fever in Alexandria has subsided. Those who are suffering from the disease are gradually convalescing, and the health department reports but few cases in the city.

During the latter part of the summer and early fall malaria is apt to affect many persons. This malady has to be watched about this time of the year, and many suggestions are made as to the best means of avoiding chills and fevers. People who live near the river or swamps are generally the first to contract this plague. In some cases its effects are not of a severe nature, and some persons suffering from malaria keep on at their several occupations, notwithstanding the discomfit occasioned.

In other cases, however, the victims are compelled to seek medical attention and often the convalescence is tedious.

It would be well for all experiencing the effects of malaria, no matter how slight, to consult physicians who can, if the trouble is taken in time, frustrate spells of serious illness.

Half a century or more ago persons living near the river, and especially marshes, had serious experiences at this season of the year In the lower part of the First Ward often all members of families would be prostrated by malaria. During the civil war hundreds of small houses were built on the lowlands by colored people who had refugeed from the rural districts and with the substitution of coal-burning locomotives for wood burners, the increased volumns of smoke was thought to have purified the air of the exhalations which superinduce the disease. Up to a few years ago trains were moved night and day in that section, as a transfer service of the B. & O. R. R. was invogue. But few pass now, and the absence of the incessant of by-gone years is believed by some to have reproduced conditions of other days.

WOODWARD & LOTHROP

10th 11th, F. and G Streets
WASHINGTON, D. C.

TODAY WE BEGIN THE FALL SALE OF PRINTZESS COATS AT $25.00 AND THEY ARE THE BEST VALUE OBTAINABLE.

From coast to coast these Coats are known by women for their excellence, their style, their fine design ing and beautiful fabrics, and most of all—their really wonderful value.

This season the manufacturers of these coats planned for bigger things than ever before. With the great favor which they had attained formerly they designed more garments, conceived greater variety of styles, produced even stronger values.

We selected the eight different styles you see here from the vast number of 200, and had them concentrated the efforts of their whole organization upon the production of Coats that cannot be surpassed.

TELLS OF CARNAGE.

Lieut. Brown Saw 1,000 Dead Germans in Radius of 600 Yards.

New York, Oct. 6—Lieutenant A. Ellicott Brown, U. S. A., who visited the battlefield of the Meuse just after the fighting, reached New York yesterday aboard the steamship Ninnekanka with a vivid description of the battlefield. So great had been the carnage, he said, that within a radius of 600 yards he saw 1,000 dead Germans. The bayonet charges of the Allies, he said, were responsible for the great slaughter, as the German soldiers were so strongly entrenched that they could be dislodged in no other way.

"I saw Captain Parker, of the United State Army, while I was in France." Lieutenant Brown said, and he told me that the German Army's retreat from its near approach to Paris had been a perfect military movement, and that he had seen but one dead German left behind. The German soldiers are friendly to the French peasants, he said, and he found no trace of atrocities, although he had heard much about them."

CLAYTON BILL PASSED.

Senate Completes Administration's Anti-Trust Program—House Likely to Act Promptly.

Washington, Oct. 6—The Administration anti-trust program was completed in the Senate late yesterday when the conference report on the Clayton Anti-Trust bill was agreed to by a vote of 35 to 24. The Senate voted down a motion by Senator Reed, of Missouri, to recommit the bill to conference.

Senator Reed's motion contemplated the reinstatement of criminal penalities for violations of sections specifying methods of competition declared unlawful.

The conference report will now go to the House, where its adoption, with but brief debate, is expected.

As finally agreed to, the bill forbids price discrimination, limits interlocking directorates and prohibits holding companies, where the effect is to "destroy or substantially lessen competition." The bill also declares that "the labor of a human being is not a commodity or article of commerce" and exempts labor and farmers' unions from the operation of the Sherman Anti-Trust law. It revises the law regulating contempt of court and the use of injunctions in labor disputes, making reforms long demanded by organized labor.

VON MOLTKE REMOVED.

German Chief of Staff Succeeded by Von Voights Rhetz.

Amsterdam, via London, Oct. 6—The German emperor has dismissed the chief of his general staff, Field Marshal von Moltke, and has appointed Major General Von Voights Rhetz to that post.

This is a case of changing horses while crossing a stream, and such a measure indicates something like despair in the breast of the imperial.

The new chief of the general staff is almost unknown in Germany, so that his appointment does not create confidence. Information from the other side of the German frontier reveals some of the reported causes of the dismissal.

Von Moltke appears to have come into collision with his sovereign in regard to several important questions of strategy.

If information from Berlin be correct, the kaiser wished to subordinate sound strategy to his desire to attack England. Von Moltke preferred to postpone any special measures against England because they would have no effect on the situation at the decisive area of war.

The kaiser's famous order to concentrate the best part of the German army operating in France on attempt to crush the English army was not approved by Von Moltke, who considered that strategical necessities rendered other plans more effective.

SEVERE WINTER COMING?

A Reading (Pa.) dispatch to the Philadelphia Record says:

John Drake, the Muhlenberg township goosebone weather prophet, predicts a cold winter.

"There will be a white Christmas," he says. "I am positive that the holiday season this year will not be green.

A number of Reading forecasters agree with Drake in this respect, saying that surely the snow will be deep this coming winter because the weeds are so very high. From the sections where there was a frost this week it is reported that the tips of the leaves on the hickory trees point skyward. If the tips cul downward when touched by frost, a mild winter is certain, but when they turn upward it is a sign that they are winter leaves and that there is going to be plenty of wind blowing and plenty of snow whirling among the trees.

This is known as "the off year" for chestnuts, but the twigs are unusually loaded with burrs. This indicates to some folks that surely a hard winter is ahead. It is said that Providence in this way provides plenty of food for the squirrels to stow away in the hollow trees.

PORTUGAL TO JOIN ALLIES

Berlin Oct. 6—Official press matter given out at army headquarters says:

"British ships have arrived at Lisbon and are probably designated to transport Portuguese troops. Portugal's co-operation in the war is imminent, the mobilization of the Portuguese forces, it is believed, having been ordered on the demand of the British government.

"England is sowing mines in several parts of the North Sea and a warning to this effect has been given to neutral shipping.

"The Roumanian Crown Prince has been strongly rebuked for his Russophile agitations. The leaders of the Roumanian parties have declared themselves in favor of continuing the neutral policy of the Roumania government.

"A manifesto issued by the Roumanian Socialist party assumes that the neutrality of the country will be preserved condemns the Russophile propaganda in certain newspapers and emphasizes the dangerous position of Russia.

Washington, Oct 6— While no confirmation of the report from Berlin that Portugal was preparing to join forces with the Allies against Germany has been received by the Portuguese Legation here, the minister, Viscount de Alte said yesterday his country was prepared to take that step whenever Great Britain should call upon her to do so.

A treaty of long standing between the two countries, providing for mutual protection, was reaffirmed at the outbreak of the present war, he said and that action ratified by the Portuguese cabinet September 28 Great that date to fire a special salute to the Portuguese flag in recognition of the act.

REPORTED FIND OF OIL.

Fluid Discovered in Water Well, Forty-Two Feet in Depth Near Culpeper.

Culpeper, Va. Oct. 6—The citizens of Culpeper county are very much elated over the finding of oil in large quantities in a bored well about eighteen inches in diameter and forty-two feet deep in the village of Brandy station, about six miles from here, on the main line of the Southern railway. The well is located on property owned by Frank Kyle, a merchant.

For some time the taste of kerosene has been noticeable by the owners of the well, but not until recently have they had to abandon the use of it. About a week ago the taste became so strong of oil that further use of it as water was impossible, and upon examination of the production it was found to consist of from one-third to a half of almost pure kerosene oil, together with the kindred substances which usually accompany such oil.

The quality has been tested in a number of crude ways by the residents of the neighborhood with wonderful results, and a sample is on exhibition at the Second National Bank of this place. Lamps are being filled with it, and it burns almost as well as the pure kerosene sold in the stores. Another striking evidence of the genuineness of the oil territory in this vicinity is that the flow rises and falls with the ocean tides. This, in the opinion of those familiar with oil fields, is one of the very best indications that oil from a large vien is seeping into this well.

ONLY SURE CORN CURE EVER KNOWN.

"Gets-It" the New Way, 2 Drops do it.

To endure the pains and tortures caused by a little thing like a corn is ridiculous, simply because it is unnecessary. The new plan corn cure

"GETS-IT" is the first one ever known to remove corns without fail, without pain and without trouble. This is why it is the biggest-selling corn cure in existence today. It is now used by millions, because it does away with sticky tape, with plasters and cotton rings that shift their position and press down onto the corn, with salves that "raw up" the toe, with "harnesses" that cause pressure and pain, with knives, razors and files, clawing and pulling at a corn.

"GETS-IT" is applied in two seconds. Two drops applied with the glass rod do the work. Pain goes, the corn shrivels, vanishes. Accept no substitute. Try it on any corn, wart, callus or bunion tonight.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence and Company, Chicago.

PATRIOTISM OF THE IRISH.

It was suggested at the beginning of the present war that not many Irish would fight for England. The facts have disproved such baseless assertions, as it is shown that Ireland has sent more soldiers to the front, in proportion to her population, than England. John Redmond and his colleagues are moving through Ireland arousing the patriotism of the people.

Their appeals are expected to be fruitful. At many meetings public bodies have indorsed Mr. Redmond's manifesto calling the Irish to arms, and, if his advice to have the Irish form a separate brigade or corps, as the Welsh are doing, is followed, it is thought by recruiting officers that the response will be greater.

WATCHING AND WAITING.

As is known, prayers for the speedy return of peace in Europe went up from millions of souls in this country last Sunday, not only in the churches, but in private homes also. All denominations vied, and there is an earnest expectation that these supplications will be answered.

From the king down to the humblest resident of the great city of Nineveh prayed in sackcloth and ashes that the God of the Hebrews would not destroy the place as the prophet Jonah had announced. Those appeals were answered, and who can say that those of a great nation will be unheeded?

Those who are awaiting an answer to their supplications have been enthused by the visit of Count Von Bernstorff, the German Ambassador, to the State Department yesterday, as it is believed by many that his call was, in the main, in the interest of the mediation proffer of President Woodrow Wilson.

He conferred for half-an-hour with Secretary Bryan and his visit aroused much speculation in diplomatic circles as to the possibility that further efforts had been set in motion by the Administration, indirectly at least to bring about peace. Neither the Secretary nor the Ambassador would discuss the purpose of the visit, although it is known that the diplomat made a special trip from New York in response to a telegraphic request sent by Mr. Bryan. He left the Secretary's room burdened with copies of peace commission treaties negotiated by Mr. Bryan with various other countries, and is understood to have been asked to forward these promptly to Berlin. The treaties are typical of all the peace conventions upon which Mr. Bryan has been at work, although they differ somewhat in detail.

MEREDITH'S WISE REMARK.

The late Elisha Meredith, who represented the eight congressional district of Virginia, appeared at the Opera House here during the campaign of 1896, when he was a candidate for renomination to Congress where he sacrificed his health and wealth in an effort to please his constituents, and during the course of his speech said: "But one person has appeared on this earth who was able to feed five thousand with five loaves and two fishes and I do not wield His power."

Mr. Meredith's remarks are equally applicable to Representative Carlin, who now occupies his seat in Congress. Mr. Carlin is equally impotent, we believe, in dividing the few offices outside of the classified service at his disposal among the horde of office seekers from this district, to the satisfaction of all.

SUICIDE OF A STUDENT.

Hanged Himself Over Fire, And When Rope Burned Body Dropped in.

New York, Oct. 6.—Building his own funeral pyre William Adele, 20 years of age, committed suicide yesterday, a victim of overstudy.

He had suspended himself, with a rope, tied to a stump, over the cliff, and dangled about five feet above the leaping tongues of flames of the fire he had started with his own hands, until the rope was burned and his body shot down into the heart of the fire.

APPEAL TO SCHOOL BOARD.

(Communicated)

Mr. Editor:—As a mother and having the same feeling for my little ones, as I know each parent in this city possesses, or should have, I appeal to those in authority to remedy the conditions existing in our public school system. We all know that the new building on Prince St., was erected for the graded schools, without reference to a high school but conditions are such that we have a high school and there is not room enough for all. In consequence of this some one has to get out. Unfortunately the lot has fallen to the little tots in the school to hie themselves to the old Peabody Building, which has had an awful black eye given it in past years. I know it to be a fact that the building is unsanitary, dangerous to babies and entirely unfit to house the little ones in. In case of fire they would be helpless and would perish before help could reach them. If, while the new high school is in course of erection, any school has to vacate the new building, why not let it be the grown boys and girls who would stand a chance in case of danger. I appeal to the mothers to enter a protest against the action of the School Board in this matter, and labor to remedy it. Mr. Editor I beseech you to give this space in your excellent paper.

Yours, respectfully,
A MOTHER.

Check the Symptoms of Lung Trouble

One of the many reasons why Lung Trouble is so difficult to fight is because the disease is often of a very flattering nature. The patient may look well, but in reality is fast losing strength by continued night sweats, fever and cough. These symptoms should be checked as quickly as possible. Eckman's Alterative is beneficial in checking fever and night sweats and it has brought about many complete recoveries. Read this case:—

305 W. 30th St., New York.

"Gentlemen: I am writing you this testimonial that others may know what your Alterative has done for me. Since I was a very young woman I was a sufferer from Bronchitis. I tried doctor after doctor, getting little or no benefit. Finally I had night sweats, weak spells and lost rapidly in weight and my doctor told me if they were not checked I would have Lung Trouble. Miss Mary Korhamer, who is a friend of mine, recovered after taking your Alterative and insisted that I try it. I am now, after two years, perfectly well, strong and healthy."

(Affidavit). MRS. ROSA VOELPEL.

(Above abbreviated; more on request.)

Eckman's Alterative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stubborn Colds and in upbuilding the system. Contains no narcotics, poisons or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists.

Price $1.00 and $2.00 a bottle.

WISHED SHE COULD DIE

And Be Free From Her Troubles, but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I would die and be relieved of my suffering, from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do my housework.

The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally, I took Cardui, the woman's tonic, and I am not bothered with pains any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui goes to all the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything were wrong, and need something to quiet their nerves and strengthen the worn-out system.

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardui. It will help you. At all druggists.

JAPAN CAUSES SUSPICIOUS

Alleged That Mikado Has Broken Pledge in Regard to Integrity.

New York, Oct. 6—A Washington dispatch to the Herald says:

That Japan has broken the pledge made at the outset of her war against Germany by violating the territory integrity of China, and that the United States cannot henceforth remain an entirely disinterested observer of the Japanese campaign is the belief of officials here.

Japan has already sent her troops 100 miles inland along the German railroad to Weihsein, and now report from Peking state that she will continue her way to Tsinau, where the railroads joins with the line running north and south from Nanking to Tientsien. Officials here declare that they can see no military necessity for such a move in connection with the campaign against the German coast stronghold, and they fear gravely that this seizure of the railroads foreshadows a Japanese occupation of the entire province of Shantung.

Especially since Japan is following this course in the face of an offer from China to take over the operation of the German railways, Washington regards Japan's activities with suspicion.

Washington dispatches to the Herald when Japan declared war against Germany, which were based upon statements of officials, showed that the United States had two things to fear from Japan's campaign: First, that she would sieze some of the German islands of the South Pacific, which would place Japan directly in the path of communication between the United States and the Philippines; and, Second, that Japan would use her campaign against Germany as a cover for an aggressive move against China with the intention of intrenching herself in China proper.

NEGRO HOLDS UP WOMAN.

Robs Her And Attempts Assault, But is Beaten Off.

Petersburg, Va., Oct. 6.—Mrs. Frank Harvanek, of Prince George's county, was held up by a negro Saturday night, who robbed her of $5 and attempted to assault her. Mrs. Harvanek, who is quite a muscular woman, beat the negro off and he escaped.

The highwayman dragged Mrs. Harvanek from her buggy and after securing the money knocked her down. The Sheriff of the county arrested a negro named Jim Harris on suspicion and when taken before Mrs. Harvanek was identified as her assailant. The hold-up and attempted assault occurred about three miles from Petersburg. Harris was committed to the county jail.

DIES STANDING IN A SHED.

Tragic End of a Petersburg Car Repairer

Petersburg, Va., Oct. 6.—J. C. Cramer, of this city, was found dead under a shed in the lower section of the city aobut 10 o'clock yesterday morning. When discovered the body was standing erect, with hat and all clothes on.

Three gashes across the left wrist, two on the back of the wrist and one on the front, apparently inflicted with a knife or razor, either of which would have caused death by bleeding, were the only marks found on the body.

Cramer was about forty years of age, and came to Petersburg about fifteen years ago from Ohio.

Until recently Cramer was employed as car repairer by the Norfolk and Western Railway.

Death of a Virginian.

Winchester, Va., Oct. 6.—Samuel Glenn, aged about sixty-five years old, a member of an old and well-known Winchester family, died several days ago at Huron, S .D., where he had been connected with the Huron station of the United States weather bureau over thirty years. He was formerly associated with his brother, the late Washington Glenn, in the retail jewelry business in Washington. He was prominent in Masonic circles.

Reserve Bank Organized.

Richmond, Va., Oct. 6.—At a meeting of the directors of the Fifth District Federal Reserve Bank yesterday, the organization was completed. George J .Seay, of Richmond, was elected governor and Jas. A. Moncure, of Richmond, secretary. The executive committee consists of William Ingle, of Baltimore; George J. Seay, of Richmond, and Col. John F. Bruton, of North Carolina. Quarters have been obtained for the new bank.

POULTRY EXHIBIT AT FAIR

Four Hundred More Birds This Year Than At Last Year's Fair.

Richmond, Oct. 6—With four hundred more birds entered than last year the poultry exhibit at the State fair grounds is undoubtedly the most representative one in the history of the annual event. C. T. Riddick, superintendent of this department, asserted yesterday afternoon that the birds on display surpass all previous years, both in quantity and quality.

In fact, the entries this year are so numerous that the poultry building is inadequate to house all of the birds entered and a tent had to be placed just outside in order to show all of them. According to Superintendent Riddick, more than 500 chickens were refused owing to lack of room. However these congested conditions will be remedied by next year, Superintendent Riddick declaring that he will do everything in his power to get the directors to sanction the erection of a larger building, or to enlarge the old structure.

Among the many features of this interesting exhibit is a carrier pigeon, called the dove of peace, which was sent to the fair by President Woodrow Wilson. The bird is in a neat little cage and is hung in the south corner of the building, just beneath a United States flag. This pigeon was sent to President Wilson by someone who is interested in the restoration of peace among the warring nations of Europe, and the president being a strong advocate of peace, thought it a good idea to send the bird to various fairs throughout the country.

Another interesting feature is the exhibition of a number of little partridges—something which has never been displayed at the fair here before. They were hatched by a bantam hen, and the latter has kept constant watch over them ever since they saw the light of day.

HUNGARIAN PORTS CLOSED

Authorities Fear Attack by English and French Fleets

Venice (via Paris), Oct 6—Fearing an attack by English and French fleets in the Adriatic, naval authorities at Fiume have ordered all Hungarian ports closed from an hour before sunset until an hour after sunrise.

A Bucharest dispatch announces that Roumania has prohibited the exportation of flour, but is still permitting grain to be exported. The Austrian Minister of Commerce reports the production of coal during August dropped 30 per cent. In Germany it is said the coal production decreased by half.

Even the most exaggerated predictions, made 66 days ago when the European war began, regarding the number of men that would be called into the conflict and the tremendous losses that would accompany it have been borne out. Events now show that the nations at war have 18,000,000 men under arms or at the battle fronts.

JERUSALEM FACES FAMINE

Large Portion of Population Unable to Obtain Food.

Washington, Oct. 6—Ambassador Morganthau, at Constantinople has appealed to the State Department for additional funds for the relief of Americans in the Ottoman empire. The recent deposit by this government of $150,000 has been found inadequate.

Ambassador Page and Herrick, at London and Paris, respectively, were advised of the situation in an effort to make quickly available funds for Turkish distribution and steps also were taken in that direction by Treasury Department officers.

Recent advices from Turkey described the financial condition as acute. Checks and other negotiable papers are refused by the exchanges, the gold supply having been found to be inadequate.

A private dispatch to the State Department yesterday said conditions in Jerusalem were such that food could not be obtained by a large portion of the population and many were facing starvation. Officials here were undecided as to what relief could be offered.

It is believed arrangements to send additional funds to Turkey will avoid using the cruiser North Carolina and Tennesee for distribution work. The North Carolina is already in Turkish waters, where she has been ordered to remain indefinitely. The Tennessee has been dispatched to Brindisi, Italy, within 50 miles of the Turkish empire.

Human Factors in Good Service

There are three parties to every telephone conversation--the party calling, the trained operator, and the party who answers. All three share alike the responsibility for quick and accurate telephone service.

The calling party should give the correct number in a distinct voice, speaking directly into the transmitter, and wait at the telephone until the party answers or the operator reports. The called party should answer promptly.

Patience on the part of the telephone user and the telephone operator is also essential to good service.

London, Oct. 6—An official message from Constantinople, transmitted from Amsterdam to the Central News, says that the victims of the earthquake in the province of Konia, Asia Minor, are estimated at 2,500.

Smyrna, Asiatic Turkey, Sunday, October 4 (via London October 5).—The towns of Isbarta (population about 25,000) in the province of Konia, were severely damaged by an earthquake last night at midnight. The loss of life was very heavy. These two towns are centers of the carpet industry.

A dispatch from Fort de France, Island of Martinique, received in New York last Saturday, said that shortly after 1 o'clock that day a severe earthquake shock was felt at Fort de France. The direction was from north to south. No damage was done locally. The same shock was recorded also through the Windward and Leeward Islands.

GERMANS FALL INTO TRAP.

French Scarecrows Lure Entire Regiment to Death.

Paris, Oct. 6—There is a report here that a French force in Alsace annihilated the One Hundred and Fourth Baden Reklment by means of a remarkable ruse successfully worked in a dense fog.

Between Alkrich and Waldghoem a considerable French force discovered the nearness of the Baden regiment. The fog was so thick that it was practically impossible to distinguish figures more than twenty feet distant.

Hurriedly procuring many sticks and boughs the French carried these to an open field, where they stuck them into the earth. The French placed their caps on the sticks. From a few feet away in the fog the capped sticks resembled troops blundering and helpless. The French immediately ambushed themselves along the roads leading to the field.

Meanwhile they sent a small force to lure the Germans to the trap of sticks and caps. Slowly the real French soldiers fell back until the Germans, vaguely seeing the make-believe soldiers, cheered and charged wildly.

The French waited until they were completely in the trap then opened fire from three sides. The German regiment was cut to pieces. Hardly a man escaped.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

They wouldn't smoke Tuxedo if it didn't keep their minds alert and cheerful all day long, day in and day out. A tobacco that can do that stands in a class by itself.

Tuxedo is made of the very highest grade of choice, mellow, sweet Kentucky Burley leaf—treated by the *original* "Tuxedo Process," which removes the sting so that it *cannot bite* your tongue—granulated so that it smokes freely and uniformly—packed 40 pipefuls to the 10c tin.

Tuxedo deserves every good thing that has ever been said of it—and to prove it Tuxedo sells by the *millions upon millions* of tins annually.
